

BOND GROUP EXPANDS HIREFLEET DIVISION

THE Bond Group - one of Europe's leading chiller and freezer specialists - has expanded their Hire Division as part of its current restructuring programme.

The Division operates an extensive fleet of chiller and integral cabinets, which are suitable for short or long term hire.

A spokesman for the Division said: "Our new service will enable stores to continue trading chiller and frozen products while their main store refrigeration is being re-fitted.

"It is also ideal for long or short term promotional periods," he said "such as Christmas where supplementary refrigeration is required to increase a stores chilled or frozen display."

The Division's fleet consists of double air curtain multidecks for meat, produce or dairy storage, half glass door and well freezer cabinets and chilled serve overs.

Each cabinet is supplied fitted with castors to enable the cabinets to be repositioned to ensure that costly building work is not delayed while cases are re-sited.

Initial delivery is made by Bond's own dedicated transport, and all cases are unpacked, and placed in situ; while for ease of connection, cabinets can be supplied with a choice of electrical connectors.

Health and safety, of course, are taken into consideration along with hygiene. Every machine has been rigorously cleaned and has received a comprehensive test including P.A.T.

The Bond Hirefleet is supported by a 24 hours seven days a week service backup, ensuring complete peace of mind to the store operator.

Bond also is now able to offer support to the event and exhibition market, through the addition of the Coldhire section of the Hire Division.

The Coldhire team specifically service exhibitions and outside events such as Glastonbury, V, as well as regional county shows and exhibitions at the UK's major venues.

More information for Coldhire is available via their dedicated website www.coldhire.co.uk
