Remote multideck display case suitable for the presentation of dairy products and fresh produce. Super slim depth of only 754mm maximises product display area and minimises floor space requirements. Optional end walls are mirrored as standard and part of full panoramic. Fitted with bumper bars and five levels of shelving as standard. There are many options available to personalise the cabinet such as multiplexing kits, undershelf lighting, baskets, perspex risers and wire dividers.

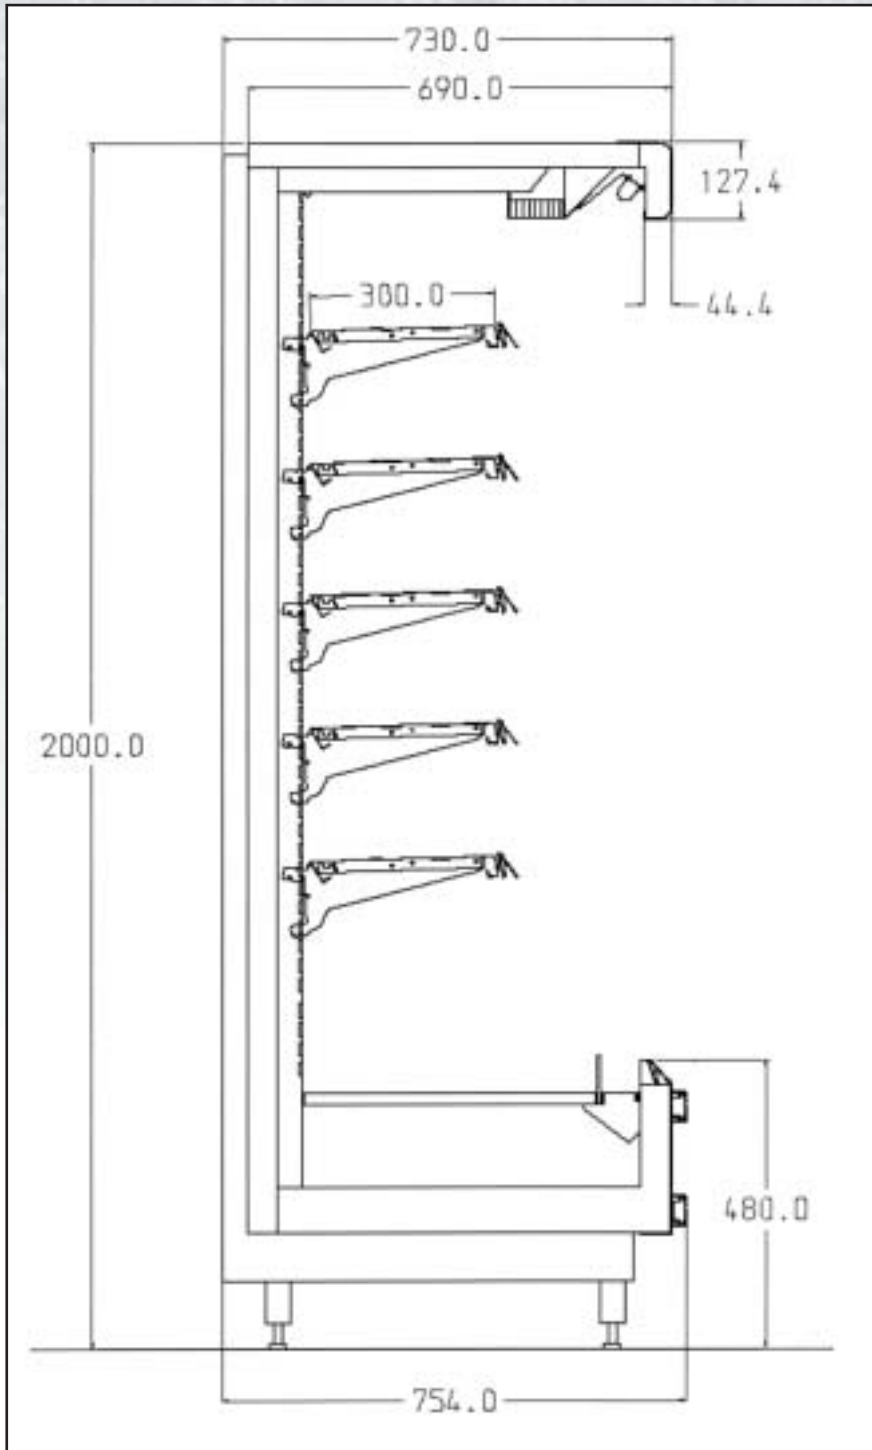

NOTES

The depth at the base of the cabinet is 754mm, the depth at the top of the cabinet is 730mm. If a 2,5 metre cabinet or above is delivered directly to site, an additional charge will be applicable if off loading is required.

Product requires professional assembly on site, this is not included in the price.

Condensing unit is not included in the above prices.
