

# Boston Rim

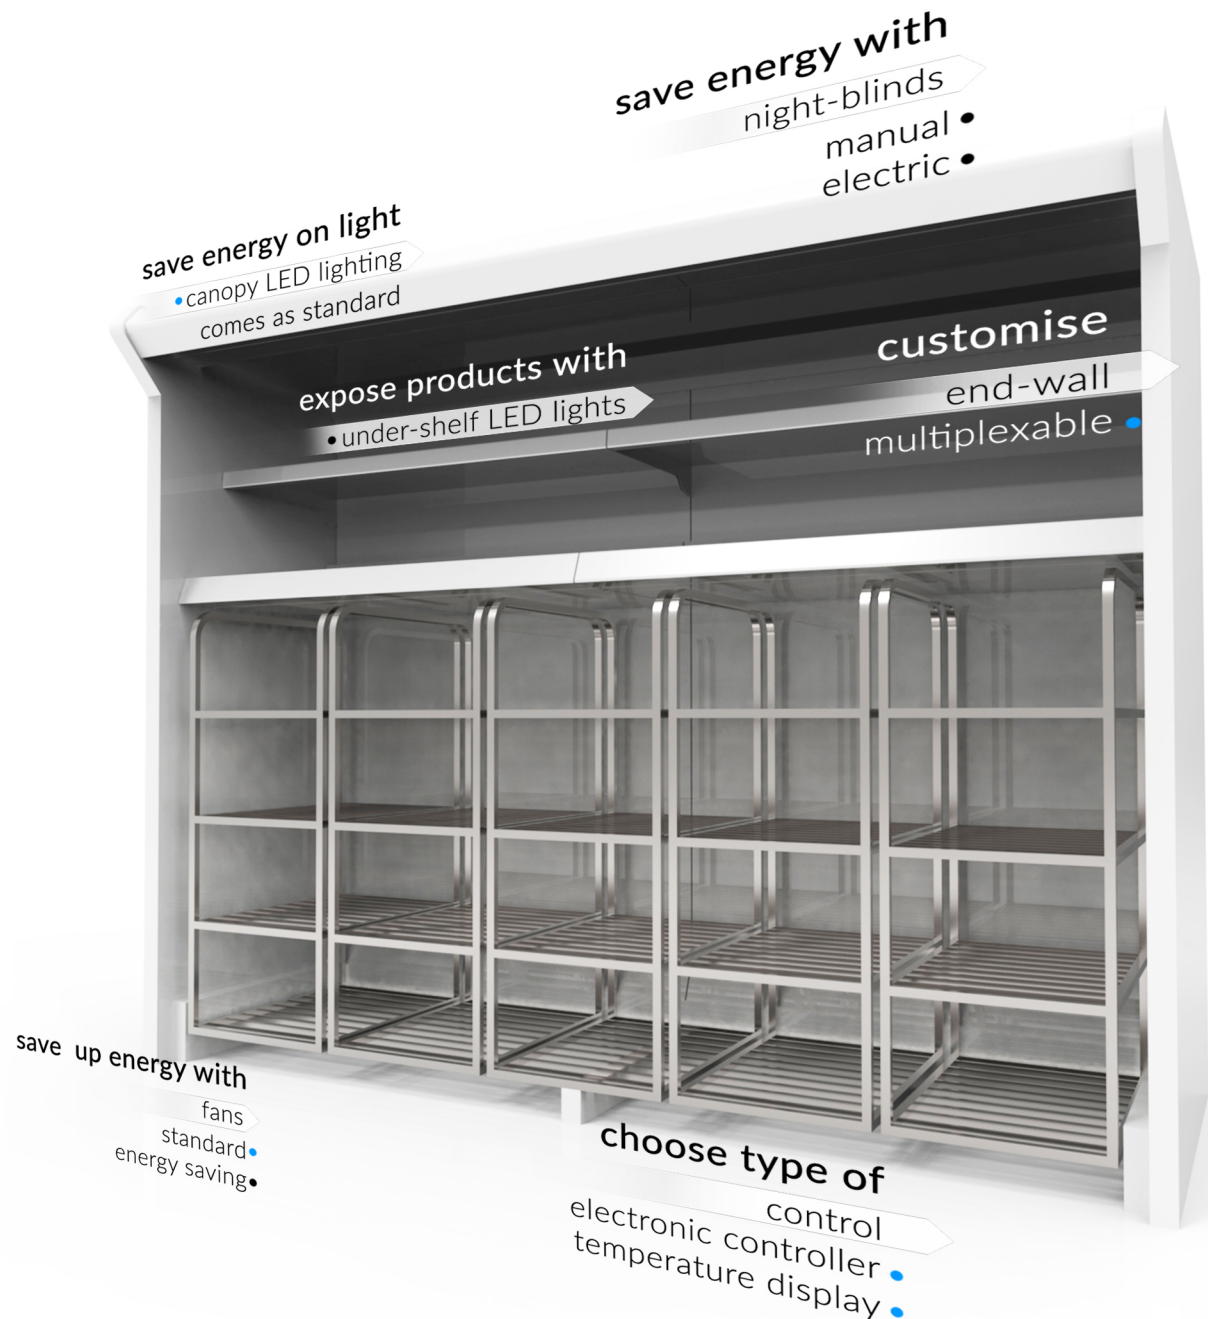

Remote Refrigerated Display Cabinet | Roll in Milk

This RIM cabinet is specifically designed to match the UK retail environment using the latest technology.

The RIM remote cabinet range is available in the key sizes and is capable of refrigerating all types of milk related products and juices at  $-1^{\circ}\text{C}$  to  $+7^{\circ}\text{C}$ . The Boston RIM range is available to run through seamlessly with the Dallas & Eco Dallas remote range using combination endwalls either glazed or solid.

## Boston RIM cabinets are manufactured with LED lights as standard.

The Boston RIM range is manufactured using long life materials and durable parts, designed to be re-manufactured multiple times during its product lifecycle. Energy efficient components reduce running costs for the retailer without compromising on performance.
